

# GARBAGE

Pew!! What is that smell?  
GARBAGE!!  
That garbage really stinks!

When you drink a soda  
And throw the can on the ground  
Or eat a big hamburger  
Leave the wrapper lying 'round

You're one tiny piece  
Of a big, gigantic mess  
Called ecological nightmare  
And I think you know the rest

(CHORUS)  
G-A-R-B-A-G-E  
Now I know it begins with me  
Garbage,  
it really stinks!  
Pew!

G-A-R-B-A-G-E  
Pollutes the air  
Pollutes the sea  
Garbage--Ech!  
Garbage--Pew!  
It really stinks!

Take a look at the trees  
Take a look at the grass  
If you and I don't take care of them  
We all know they won't last

# GARBAGE

You can push a person or a planet  
Only so far before they snap

So let's stop being so self-centered  
And get the planet back on track

(CHORUS)

So just one more time  
I'll use a little bit of rhyme  
To get my point across  
For words I'm never at a loss

The reason our Earth may die some  
day

Is you and I don't care today  
So if in the future we lose our home  
It's noone's fault but our own

(CHORUS)
