Do karate

Eat some plums

Take a photo

Play the drums

Dance Movements

Click rhythmically on a computer mouse with your index finger

Looking up, make a climbing motion, alternating hands

Grab the reins of a horse with both hands and bounce up and down

Cover your face with both hands

Quickly open your hands to the sides

Give a few karate chops in the air with your hands

Form a bowl with one hand, and with the other grab some plums and put them in your mouth

Make your hands into a camera and take a photo with an index finger

Play the drums!
