

Dance Movements

ROBOTS IN MY HOUSE

Song Lyrics

Dance Movements

*All gestures should be done stiffly, like a robot.

Look!

There ´s a house.

Point to one eye

Put your hands together over your head in a triangle to make a house

Let ´s go in.

Bend your arm with your palm facing in and then move your hand rhythmically towards yourself

Yes, I ´m hungry.

Rub your hand in circles on your stomach

I smell bread.

Point rhythmically to your nose

There are robots

Do The Robot: Elbows against your torso, forearms extended in front of you, palms facing each other, raise and lower your hands robotically

Eating all the bread.

Join the tips of your thumb and all fingers on one hand, and bring them rhythmically towards your mouth

There ´s a robot

Do The Robot

Sleeping in my bed.

Put your palms together, lean your head to one side and rest it on your palms

There ´s a robot

Do The Robot

Dancing with my Mom.

Close both fists as if to grab your mother´s hands and move your arms back and forth

Robots! Robots!

Do The Robot

In my house

Put your hands together rhythmically over your head in a triangle to make a house

Robots

Dance like a robot during the whole section

Robots

Dance like a robot

Robots

Robots

Dance like a robot
