

# Dance Movements Around The World

## Song Lyrics

**Get in a car**

**Get on a bus**

**Get on a camel**

**Get on a horse**

**Get on a boat**

**Get on a train**

**Get on a bike**

**Get on a plane**

**Riding,**

**Driving**

**Flying high**

**In the sky**

**Fly around the world**

**On a plane**

**Ride around the world**

**On a train**

**Drive around the world**

**In a car**

**See the Amazon**

**The Pantheon**

**Let's go!**

**Get up and**

**go!**

## Dance Movements

**Turn a car steering wheel with both hands**

**Repeat the gesture with a much larger steering wheel**

**With one arm extended in front of you, trace the hump of a camel's back**

**Grab the reins of a horse with both hands and bounce up and down**

**Grab an enormous ship's rudder with both hands (above and in front of your head) and move it from side to side**

**Raise a fist in the air and pull down rhythmically on the cord of an old train whistle**

**Put your hands on a bike handlebar and pedal**

**Extend your arms to the side like plane wings**

**Put your hands on a bike handlebar and pedal**

**Turn a car steering wheel with both hands**

**Extend your arms to the side like plane wings**

**Point to the sky with both hands above your head**

**Turn around in a circle**

**Extend your arms to the side like plane wings**

**Turn around in a circle**

**Raise a fist in the air and pull down rhythmically on the cord of an old train whistle**

**Turn around in a circle**

**Turn a car steering wheel with both hands**

**Row with both hands to one side holding an oar, as if in a canoe**

**Join the fingertips of both hands together high above your head to make a tall dome**

**Curve one arm in front of you, palm facing towards you, and wave others toward you**

**Raise one arm above your head and point to the sky**

**From the previous position, "throw" your arm forward energetically**
