

Dance Movements

The Funky Martian Dance

Song Lyrics

I eat on Neptune

I sleep on Mars

I bathe on Saturn

It isn't very far

The school's on Jupiter

The pool's on Earth

The park's on Venus

This is my world.

I'm a Martian

I can zoom

To all eight planets

Plus the moon

Let's be friends

We can sing

And do the Funky Martian Dance

Do the Funky Martian Dance

Do the Funky Martian Dance

Now shake both of your heads

And shake your seven hands

Do the Funky Martian Dance

Do the Funky Martian Dance

Now bend your four green knees

And lift your four round feet

Do the Funky Martian Dance

Getting funky!

Dance Movements

Join the tips of your thumb and all fingers on one hand, and bring them rhythmically towards your mouth

Put the palms of both hands together, lean your head to one side and rest it on your joined hands

Rub one arm with the opposite hand

Raise an index finger and wag it from side to side

Hold an imaginary book in one hand and write in it with the other

Make a swimming motion with your arms

Hit a tennis ball with your racquet

Point to your chest with both thumbs

Place your wrists on top of your head, palms facing forward, and wiggle your fingers like Martian antennae

Starting with one arm extended out to the side, "zoom" your finger to the other side

Show 8 fingers

Form a sphere in front of your face, spreading your fingers wide and joining the fingertips

Put your arm around the shoulders of an imaginary friend

Hold a "microphone" in one hand and sing into it

Dance like a Martian: every time you sing this phrase, dance the way YOU think a Martian does. The stranger, the better!

Shake your head from side to side

Shake your hands high in the air

Dance like a Martian

Bend your knees rhythmically

Rhythmically raise one foot, then the other

Dance like a Martian
