

Dance Movements

Seasons And Weather

Song Lyrics

Hot in the summer

Cold in the winter

Rainy in autumn

Lovely in spring

There are four seasons

Now let's hear you sing!

What's the weather like?

Summer is sunny

What's the weather like?

Winter is snowy

What's the weather like?

Autumn is rainy

Put your raincoats on

Umbrellas up!

Dance Movements

Wipe the sweat from your forehead

Cross your arms and rub them to warm up

Starting with your hands raised high in the air, wiggle your fingers while lowering your hands

Look up at the sun and smile, while extending your arms to the sides

Show four fingers

Put one hand against your head, behind your ear, as if to hear better

Question gesture: place your hands at chest level, palms up, elbows close to your torso, and look rhythmically from side to side at your classmates

With both hands, trace an enormous sun above and in front of you

REPEAT THE GESTURE FROM THE FIRST LINE OF THE CHORUS

With both hands together, throw a bunch of snow up in the air and watch it fall

REPEAT THE GESTURE FROM THE FIRST LINE OF THE CHORUS

Starting with your hands raised high in the air, wiggle your fingers while lowering your hands

Starting with your closed fists at shoulder level, put your raincoat on and start fastening the buttons

Open your umbrella: one hand holds the handle while the other hand slides the umbrella open
