

Dance Movements

A Very Big Family

Song Lyrics

My brother is short

My sister is tall

My mother and
father

love us all

I have a very big family

I love

them and they love

me

Dance Movements

Put one hand out to the side, parallel to the floor, at hip height

Lift the same hand up over your head, keeping it parallel to the floor

Stretch one arm out to the side

Stretch the other arm out to the side

Give yourself a hug with both arms

Open your arms slowly to the sides

Point to yourself with both hands

Point forward with both hands

Point to yourself with both hands
